About Lung Cancer Canada:

Based in Toronto, Lung Cancer Canada (LCC) is Canada's only national charitable organization that is solely focussed on lung cancer. Lung Cancer Canada serves as Canada's leading resource for lung cancer education, patient support, research, and advocacy. LCC's mission is four-fold: 1) to increase public awareness of lung cancer, 2) to support and advocate for lung cancer patients and their families, 3) to provide educational resources to patients, family members, healthcare professionals, and the general public, and 4) to raise funds in support of promising research opportunities.
